Directions for Mixing

Normally no mixing of this product is necessary; however, if clumping is evident due to extremely moist conditions, simply tap lightly with a small shovel or other tool.

Items You May Need

- Field spreader
- Small shovel or hoe
- Gloves
- Safety glasses

Packaging and Yields

1 – 50 lb. bag will do approximately 300 ft. of boundary line at 3" wide x 1/6" thick. The yield will vary with the amount of moisture present and the type of spreader equipment used.

For Best Results

The field spreader should be completely dry. The application should not be made when the humidity is high. The boundary lines should be applied to dry ground.
